

Press release

3. april 2025 - *Vaekstkapital Expands to Finland to Strengthen Investment Services in the Nordics.*

Vaekstkapital, a leading and fast-growing investment company, announces its expansion into Finland as part of its ongoing growth strategy in the Nordic region. This strategic move aligns with the company's vision of providing tailored, innovative investment solutions to a diverse international audience, building upon its success in Denmark and other European markets.

As demand for diversification increases, Vaekstkapital is focused on offering Nordic investors access to a range of institutional-grade investment strategies designed to meet the evolving needs of semi-professional and professional investors. The firm specializes in alternative investment opportunities that extend beyond traditional equities, targeting high-growth sectors such as real estate, renewable energy, forestry, private equity, and other uncorrelated asset classes. These investments provide significant return potential while mitigating the risks commonly associated with conventional market assets.

“Our goal is to provide clients with high-quality investment opportunities that deliver attractive returns while maintaining a lower correlation to traditional markets,” said Jens Kindberg, Founder of Vaekstkapital Group. *“In today’s volatile investment landscape, many investors are seeking ways to diversify their portfolios. Our alternative investment strategies grant access to high-potential opportunities that are often underrepresented in conventional portfolios.”*

The expansion into Finland also represents the next step in Vaekstkapital's broader strategy to establish a strong foothold in the Nordics. As part of this growth, Vaekstkapital is establishing dedicated teams for each Nordic country to ensure localized service, tailored investment approaches, and seamless integration with the company's global offerings. These teams will bring in-depth local knowledge and insights, fostering stronger relationships with investors and partners in each region.

“We are entering these markets with the same commitment to excellence that has driven our success this far,” Kindberg added. *“Our team is excited to engage with new clients and partners across the Nordics, building on our proven track record of delivering attractive returns through our diversified investment projects. With the increasing demand for alternative investments in the region, we believe our presence in Finland will offer Nordic investors access to unmatched opportunities for growth.”*

About Vaekstkapital Group:

Vaekstkapital Group is a Luxembourg-registered investment firm. From Luxembourg the group is strategically managing principal investments across Europe. With operations spanning 11 countries, we leverage our extensive network and market expertise to drive value creation across diverse sectors.

Since 1976, Vaekstkapital Group has successfully executed over 200 projects, facilitating investments exceeding DKK 30 billion across European markets. Today, we serve as a key financial partner, bridging the gap between businesses with capital needs and investors seeking high-potential opportunities.

“Vaekstkapital Group differentiates itself by maintaining a flexible investment mandate—unrestricted by industry, asset class, or geography. Our core strategy is centered on identifying growth-oriented and secure investments, granting our investors access to opportunities typically reserved for private equity and institutional funds.”

– Jens Kindberg, Founder & Owner
